CONTENTS OF VOLUME 4, 1989

Number 1

Randolph D. Glickman	1	Prolonged activity of retinal ganglion cells following intense, nanosecond laser flashes
Ivan Bodis-Wollner, Marcia S. Marx and M. Felice Ghilardi	19	Systemic haloperidol administration increases the amplitude of the light- and dark-adapted flash ERG in the monkey
L. D. Blumhardt, G. Barrett, A. M. Halliday and A. Kriss	27	The effect of field size on the pattern reversal visual evoked response (PRVER)
John V. Lovasik and Evelyn A. Konietzny	41	The effect of retinal image quality on steady state pattern ERGs and VEPs
Gordon E. Legge, Julie A. Ross, Kathleen T. Maxwell and Andrew Luebker	51	Psychophysics of reading—VII. Comprehension in normal and low vision
David Whitaker and David Elliott	61	Towards establishing a clinical displacement threshold technique to evaluate visual function behind cataract
Case Report		
Måns Magnusson and Lars-Göran Strömblad	71	Voluntary and vestibular eye movements in a case of lesion restricted to the anterior vermis cerebelli
Research Reports		
Uri Yinon	79	Hydrocephalus developed in cat: physiology of visual cortex cells
Donnell J. Creel, Alan S. Crandall, Carmen Pingree and Edward R. Ritvo	85	Abnormal electroretinograms in autism
Qasim Zaidi, Joel Pokorny and Vivianne C. Smith	89	Sources of individual differences in anomaloscope equations for tritan defects
Announcement	I	

Number 2

Lynne Kiorpes, Melvin R. Carlson and Dalia Aifi	95	Development of visual acuity in experimentally strabismic monkeys
A. Straube, W. Paulus, J. Quintern and Th. Brandt	107	Visual ataxia induced by eye movements: posturographic measurements in normals and patients with ocular motor disorders
P. Stanzione, F. Pierelli, A. Peppe, E. Stefano, P. A. Rizzo, C. Morocutti and G. Bernardi	115	Pattern visual evoked potentials and electroretinogram abnormalities in Parkinson's disease: effects of L-dopa therapy
N. M. Evans, A. R. Fielder and D. L. Mayer	129	Ametropia in congenital cone deficiency—achromatopsia: a defect of emmetropisation?
Mary C. Williams, Karen Molinet and Karen LeCluyse	137	Visual masking as a measure of temporal processing in normal and disabled readers
Michael Collins and Brian Brown	145	Glare recovery and age related maculopathy
Research Reports		
Michael Collins and Brian Brown	155	Glare recovery and its relation to other clinical findings in age related maculopathy
Gunilla Haegerstrom-Portnoy and Brian Brown	165	Two-color increment thresholds in early age related maculopathy
Esther G. Gonzalez, Martin J. Steinbach, Hiroshi Ono and Marla E. Wolf	173	Depth perception in children enucleated at an early age

Marcia S. Marx, Perla Werner, Patricia Fridman and Jiska Cohen-Mansfield — 179 Visual acuity estimates in the aged

Announcement — I

Number 3

Jonathan D. Victor, Kenneth Maiese, Robert Shapley, John Sidtis and Michael S. Gazzaniga — 183 Acquired central dyschromatopsia: analysis of a case with preservation of color discrimination

Algis J. Vingrys, P. Ewen King-Smith and Susan C. Benes — 197 Color perimetry can be more sensitive than achromatic perimetry

David S. Travis and Peter G. Thompson — 211 "Good" and "bad" eyes in multiple sclerosis: it depends on the test used

Robert W. Massof, David Choy, Janet S. Sunness, Mary A. Johnson, Gary S. Rubin and Stuart L. Fine — 221 Foveal threshold elevations associated with age-related drusen

F. Sartucci, V. Scardigli and L. Murri — 229 Visual evoked potentials and magnetic resonance imaging in the evaluation of pre- and retrochiasmatic lesions in multiple sclerosis

J. Grose, G. F. A. Harding, A. Y. Wilton and J. G. Bissenden — 239 The maturation of the pattern reversal VEP and flash ERG in pre-term infants

Research Reports

Harold E. Bedell, Janis M. White and Paul L. Abplanalp — 247 Variability of foveations in congenital nystagmus

Guy Verriest and André Uvijls — 253 Disability glare in normal and diseased eyes

Murat Emre, Marina Groner, Daniel Hofer, Rudolf Groner and Hans-Ulrich Fisch — 257 Effects of benzodiazepines on forward and backward visual masking

K. Murayama, E. Adachi-Usami and T. Yamada — 265 Effects of L-dopa on electroretinographic responses and pattern visual evoked cortical potentials in juvenile Parkinsonism

P. Bobak, I. Bodis-Wollner, S. Guillory and Robert Anderson — 269 Aging differentially delays visual evoked potentials to checks and gratings

Letter

G. W. Aylward — 275 A simple method of fitting the Naka–Rushton equation

Number 4

Lynne Kiorpes — 279 The development of spatial resolution and contrast sensitivity in naturally strabismic monkeys

Eileen E. Birch and Linda A. Hale — 295 Operant assessment of stereoacuity

Angela C. Kothe and John V. Lovasik — 301 Neural effects of transiently raised intraocular pressure: the pattern visual evoked potential and the pattern electroretinogram

John V. Lovasik and Angela C. Kothe — 313 Neural effects of transiently raised intraocular pressure: the scotopic and photopic flash electroretinogram

V. Porciatti, B. Falsini, A. Fadda and R. Bolzani — 323 Steady-state analysis of the focal ERG to pattern and flicker: relationship between ERG components and retinal pathology

G. Ambrosio, A. Andreoni and A. Colasanti — 333 Pattern specific and luminance response: a temporal differentiation

B. E. Reese and A. Cowey — 341 The neurologic consequences of a sub-chiasmal tumour on the retino-geniculo-striate pathway of a macaque monkey

Marie-Sylvie Roy, Pierre Lachapelle and Franco Leporé — 357 Maturation of the optokinetic nystagmus as a function of the speed of stimulation in fullterm and preterm infants

Research Reports

W. Paulus and J. Zihl 367 Visual stabilization of posture in a case with selective disturbance of movement vision after bilateral brain damage: real and apparent motion cues

G. W. Aylward, Vaegan and F. A. Billson 373 The scotopic threshold response in man
